

Kliktronic Shifter Information

Here is some information and a few pictures of the Universal Kliktronic Shifter, Switches, and the Mount Kit.

The Universal Kliktronic Shifter comes with the Under Bar Switch Style in Black.

If You would like it Polished that's a little more, or if You want one of the Optional Style Switches instead of the Under Bar Style that would be an additional cost. (See Price Sheet)

The Universal Kliktronic Shifter will Work on ALL Bikes, Trike, and Sidecars with the Proper Installation Kit for Your Year/Make/Model.

We are also a Pingel Shifter Dealer.

The Kliktronic Shifter is Far Superior to the Pingel Shifter, and it is more \$\$\$\$. (You get what You pay for)
